

Bundesverband der Kurier-Express-Post-Dienste e.V. and Green-Zones cooperate

Berlin, 28.11.2019. A cooperation agreement was concluded and signed between the BdKEP, the [German Federal Association of Courier-Express-Post-Services e.V.](#) and the operators of the [Green-Zones](#) portal on 14 November at the premises of the BdKEP at Potsdamer Platz in Berlin.

The aim of the cooperation is to provide BdKEP members as well as the entire CEP sector of the transport and postal services with news and announcements on environmental zones and driving bans in Germany.

In future, this information will be processed by the environmental zone experts of Green-Zones and made available to the association. BdKEP Chairman Andreas Schumann and Green-Zones founder Michael Kroehnert were present at the signing ceremony.

Further components of the cooperation: Members of the BdKEP receive [the environmental stickers and vignettes](#) required in Europe as well as the [Green-Zones environmental zone Fleet App](#) (with zoomable maps and entry regulations in real time) with immediate effect at special conditions.

The Berlin-based company Green-Zones provides information about permanent and weather-dependent (temporary) environmental zones in Europe and in the respective European countries through its portals [green-zones.eu](#), [umweltplakette.de](#), [crit-air.fr](#) and [blaue-plakette.de](#), among others. Thanks to the free Green-Zones app and the professional app (Fleet-App), tourists and especially commercial users (e.g. bus and transport companies) can obtain reliable information in real time about the current environmental zones. The required badges and registrations are also available from Green-Zones.
